

# ALPS | STADION TACTICAL GROWTH PORTFOLIO

## CLASS I

December 31, 2018

### Investment Strategy

- The ALPS | Stadion Tactical Growth Portfolio is an allocation strategy utilizing a proprietary Sharpe ratio analysis to select ETFs & tactically allocate among domestic, international, & non-correlated positions.

### Investment Management Process

#### ETF Rotation Utilizing a Three-Step Risk Management Process

#### 1 Research

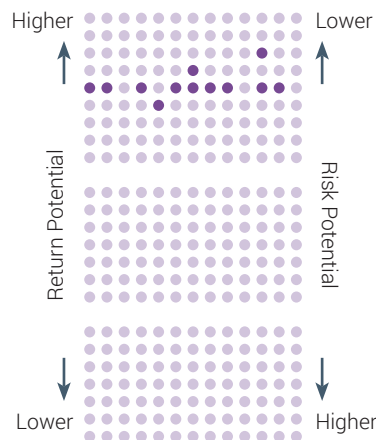

We continually rank the ETF universe using our proprietary Sharpe Ratio analysis. The Sharpe Ratio measures the excess return per unit of deviation, or risk, and our analysis provides a clear view of low-, medium-, and high-risk ETFs. We reduce individual stock risk by typically holding 8-15 ETFs, selecting sectors on a risk-adjusted basis.

$$\text{Sharpe Ratio} = \frac{\text{Average Return} - \text{Risk Free Rate}}{\text{Standard Deviation}}$$

*Standard Deviation is also known as historical volatility*

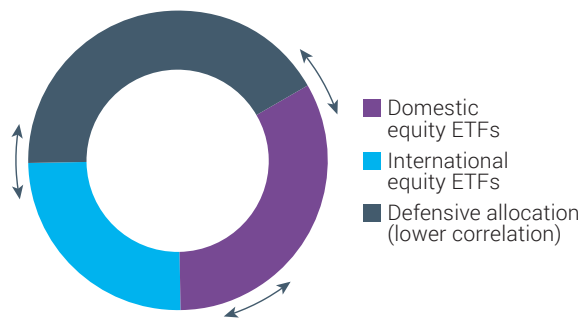

#### 2 Analysis

Our security selection process utilizes Sharpe Ratio analysis for domestic equity, international equity, and defensive holdings.

#### 3 Selection

As Sharpe Ratios change, the fund can reduce or increase its exposure to domestic equities.

### Portfolio Stats

## Important Disclosures & Definitions

**An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, call 1.866.432.2926 or visit [www.alpsfunds.com](http://www.alpsfunds.com). Read the prospectus carefully before investing.**

ALPS | Stadion Tactical Growth Portfolio is not suitable for all investors. Subject to investment risks, including possible loss of the principal amount invested. The value of the Portfolio's investments will vary from day to day in response to the activities of individual companies and general market and economic conditions. Fixed income investments, including underlying Fund Investments with exposure to fixed-income securities, will expose the Portfolio to certain risks that may have an adverse effect on the Portfolio's performance.

The Portfolio is a "Fund-of-Funds" that invests in ETFs or other investment companies, and the Portfolio's shareholders will indirectly bear its proportionate share of any fees and expenses of such ETFs or other investment companies in addition to the Portfolio's own fees and expenses. As a result, your cost of investing will be higher than the cost of investing directly in the ETFs or other investment companies and may be higher than mutual funds that invest directly in stocks and bonds.

The Portfolio is subject to foreign investing risks including currency fluctuations and political uncertainty. Investments in small and micro capitalization companies are more volatile than companies with larger market capitalizations. The Portfolio may use derivative instruments. Derivative instruments are volatile, and the potential loss on a derivative position may exceed the initial investment. Derivative instruments also involve the risk that other parties to the derivative contract may fail to meet their obligations, or that the holder of the derivative instrument is unable to close out a position, which could cause losses.

ALPS | Stadion Tactical Growth Portfolio is only offered as an underlying investment option for variable insurance contracts and to qualified plans.

Not FDIC Insured • No Bank Guarantee • May Lose Value

Sharpe Ratio: The Sharpe ratio is the average return earned in excess of the risk-free rate per unit of volatility or total risk.

ALPS | Stadion Tactical Growth Portfolio is a series of ALPS Variable Investment Trust. ALPS | Stadion Tactical Growth Portfolio is distributed by ALPS Portfolio Solutions Distributor, Inc. ALPS Portfolio Solutions Distributor, Inc. is not affiliated with Stadion.
