³ Bloomberg Barclays U.S. Aggregate Bond Index – A broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS, and CMBS (agency and non-agency). The index is reported on a total return basis, which assumes reinvestment of any dividends and distributions realized during a given time period. The index is not actively managed and does not reflect any deductions for fees, expenses or taxes. One cannot invest directly in an index. Index performance does not reflect fund performance.

Important Disclosures & Definitions

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, please contact your investment professional. Read the prospectus carefully before investing.

RiverFront Strategic Income Fund shares are not individually redeemable. Investors buy and sell shares of the RiverFront Strategic Income Fund on a secondary market. Only market makers or "authorized participants" may trade directly with the Fund, typically in blocks of 50,000 shares.

The performance of the Fund relative to its benchmark will depend largely on the decisions of the RiverFront Investment Group, LLC (the "Sub-Advisor" or "RiverFront") as to strategic asset allocation and tactical adjustments made to the asset allocation. At times, RiverFront's judgments as to the asset classes in which the Fund should invest may prove to be wrong, as some asset classes may perform worse than others or fixed income markets generally from time to time or for extended periods of time. The performance of the Fund is related to the market sectors that RiverFront may choose to emphasize or deemphasize from time to time, as well as to the individual securities selected by RiverFront within those sectors. The investment returns for particular market sectors will fluctuate and may be lower than other sectors. In addition, the individual securities chosen for investment within a particular sector may underperform other securities within that same sector. Certain bonds selected for the Fund's portfolio may decline in value more than the overall bond markets.

The value of the Fund's investments in fixed-income securities will generally decrease when interest rates rise, which means the Fund's NAV will likewise decrease.

The RiverFront Strategic Income Fund is not suitable for all investors. Subject to investment risks, including possible loss of the principal amount invested.

RiverFront's Price Matters[®] discipline compares inflation-adjusted current prices relative to their long-term trend to help identify extremes in valuation.
